Coteries of New York is a PC game and is an expansion of the best-selling tabletop RPG series Vampire: The Masquerade, first released in 1996. Prepare to step into the dark world of Vampires where they try to survive in the Netherworld, and some of them do it through the forgotten road of the living... 30 Shades of Dark is a brand new Take on Life. Imagine you are a vampire, being born in a nest in the remotest corner of the internet, bound to wander and live, along the lines of those game lines...The game presents an alternative version of the "dark universe", a world very different from the real one, where all these events happen, and you are capable of choosing your path on this un-setling landscape, wherever you choose to be. A small and charming and funny game, the very first with an android waitress, with a leaderboard on your phone!Make sure to read the rules!

----- INTRODUCTION Before anything else we ask you to choose between the two buttons below. 1. Red button is named PRINCESS BLOOD and the blue button is titled THE WICKED. 2. The game will begin in the story of Prince Blood and the Wicked Witch. As you can see in the menus below, the Wicked Witch is a human who has been chosen to become a vampire, thus, the leader of the nest in which the Prince dwells (The Wild Hunt). The Wicked Witch uses her guild, her subjects, and all the evil institutions to eliminate the Prince. Then, she opens a portal into The Netherworld, and the Prince is alone in the dark... In the un-set-ling world of 30 Shades of Dark, the first instinctive response you will have is to join The Wicked Witch, through a personal decision.This is a free choice that you can make at any time, and it has effects in the story. Another important choice is the one you are going to make by choosing to be either a Prince or a Princess. The idea is to create a more human-like impression of a game of this genre, where you choose what to play, and nobody tells you to do what they want. This means that, before the story begins, you should select one story that you want to play, according to your personal choices. I just wanna be... more of a... Prince...

hourly1 Jammers A New Member of the "Somerset Boat Club" 19 Aug 2017 05:00:25 +0000>My niece Mary has been talking to me since I retired about the boat club we belong to and now I am retired they are moving out of the Sousa's yard over to the Royal Western Yacht club base in Plymouth. We on this side of the water are a little optimistic in that we think there will be more important repairs to be done on the "Somerset Boat Club" than Plymouth. We think of the office at Sousa's (where most of us were based) was the most excellent "office" of all and we are told that it is a requirement for us to have a watertight compartment somewhere outside the boat. And this may be so but I remember the boat was moved forward to save being towed aloof from the saloon when the boat was not fully torqued down. The way they reckon it at the Royal Western is that, they have a bath but no hot water and the so, with the "binney boilers".]]>**

Insomnis is a game about the fear of the dark. For the first time in 2D game history you take on the role of a character who goes out to have fun. Maybe... Maybe. What will you find? What will you see? What will you do? Before you know it, the fun is done and you are faced with a life or death situation. But it is not over yet. Can you face the nightmare? It can be challenging or you can just relax. You can jump in without pause and you will learn it during your playtime. Hello, My name is Max van De Beek. I am a game developer from The Netherlands and founded the independent studio in 2006 called Path Games. We are developing 2D Horror Games with a lot of heart. Our Games are horror, suspense and supernatural stories. Our games are challenging and out of the ordinary. They are fresh and beautiful games and have little resemblances to the big industrialized games. We are creating something original. Hope you like our games. Kind Regards, Max van De Beek, Developer & Publisher of Path Games. Key Features • Story with a twist • Short but tough horror set in different locations • Keep playing and see how it ends • Different types of gameplay • Puzzles, brains and puzzles 8.
