Travel Set is an immersive experience: It's fun as long as you don't realise that you're wrapped in some sinister spy gadgetry from the Global Intelligence Agency.

Its challenges lie in part in the social media games, which require you to send items to people you already know on social media. You'll need to sniff out your targets on social media and then read their content to remember them in-game. Another great part of the adventure is seeing how far you can get, and it's only a matter of time until you'll stumble into someone who just so happens to know a random celebrity and he's become a target, but doesn't know you. You can grab them on your journey! And it's true: you only have to find five people, and you'll be out of the game. And if you're lost, head to the Guides page to find help.

Travel Set will challenge your social life. You'll have to find out where to send your new friends and people you know. Be prepared for a level of detective work where you'll need to figure out how to use new technologies, and decode the messages of your new friends. It doesn't stop there: every time you get back in the game, you'll be given a new set of challenges and social tools to play with. If you get it wrong the first time, then 'undo' your mistakes so you can perform a second trial and get a second chance. Over 60 hours of fun!
