From the moment you put on your Rocket Suit, you become stronger and your skills are constantly upgraded with new Rocket Cards. Improve your Rocket Suit's performance by combining Rocket Cards and build up your own "Rocket Factory" to create, upgrade, and customize your Rocket Suits. There are six different types of cards to choose from and each type has five different categories (e.g. boosters, engineers, and centralizers). The more Rocket Cards you combine to create a combo, the more powerful the combo becomes. There are more than 1,500 combinations to keep track of. -Difficulty: Never crash a launch and always have a Rocket Card on hand when the time comes to launch.-Battle with other players over the internet using your Rocket Suit or face the Rocket Factory, beat them on the nearest shore! -Battle with players using the same Nintendo Wii system but over the internet using a third-party Rocket Suit controller.-Battle against friends or strangers on your own Rocket Suit using a third-party Rocket Suit controller (the third-party Rocket Suit allows you to control both the rocket car and the rocket booster, like the Nintendo Wii controller).-Press the L3 button to control the booster and press R3 button to control the rocket car, this is the same way to control the Rocket Suit using a third-party Rocket Suit controller. -Opponents have an airtime of 30 seconds. Each time you launch a rocket, your opponents' air time decreases. If your opponents' airtime reaches zero, they are eliminated from the match. -Customizable Rocket Cards, you can create, upgrade, and customize your Rocket Suit by combining different types of cards. You can also create more than 1000 Rocket Suits for your Battle, you can choose your favorite hero's Rocket Suit. -Music and sound effects fit every moment perfectly and every moment is fun to play through. -The game was built by the same people that made Mario Kart Wii. -3 game modes: single-player, multi-player, and Battle mode.
