Rooftop Cop is free, though it contains a paid item.

If you buy the game, you will be charged in USD and the payment will be charged by your bank.

Rooftop Cop €3.99 / \$ 4.99 was originally proposed and discounted to €1.99 / \$ 1.99 to improve the visibility of the game in a very competitive market. Unfortunately the Steam is made to display the price under €0,5 to avoid displaying games without a release date. This is how we get to propose this new price. If you buy the game at this new price, you will not pay the €0,5. The discount will be extended automatically when the game is released officially.
