Story ---(From It was once a land abundant with an abundance of uncountable riches. There was no end to the material wealth. The land seemed to have limitless space, abundant natural resources and vast lands, and was filled with a prosperity of people. For a while, the people living in this land of abundance had a sense of vast prosperity. But under that abundant prosperity, a false god had appeared, and darkness corrupted the unity and harmony of the people. With a strong thirst for power, the false god, obsessed with material wealth, had spread a great pestilence and civil war throughout the land. With the conflict among the people, there was a great crisis in the land. Then, a warrior appeared. He arrived to a land where existence was nearly extinguished. However, he was alone in a battle between life and death, and he alone stood with his back against the darkness. He was a man no one knew, and yet was a man who embodied the great power of the land. The man was able to defeat his opponents in a single blow. He destroyed every possible obstacle which stood in the way of his full power. In the end, he triumphed over all obstacles and defeated the enemy. Thus, he became the first to wear the name "Elden Lord". Thereafter, his land was called the Lands Between. —In the Lands Between, there are all the battles that have been fought and all the conditions that have been generated as a result. If you want to fight a battle in your life again, you can win the future battles of the Lands Between. Explore the Strange Land Called Beyond: ---(From

In this article, you will get to know about some of the earliest voyagers. 16. ORIGINS OF FLIGHT We know that man has been having an awe of the sky since a very long time. The preys observe the sky from all directions, and the apparels and the clothes are also used in such observing. Man seems to have been the only creature on earth who has no direct connection with the sky. This is because he has built small huts on the hills. Though he observed the sky from each corner of the small hut, he was not aware of the fact that he could fly without wings. The Greeks and Romans are considered to be the first who sailed on the water. The history of these voyagers can be found in the writings of Ptolemy and Varro.
