Here is my attempt. It is clear that $a_n = a_n$ for $n = 0, 1, 5$. Now assume that $a_n = a_n$ for some $n \geq 1$. We want to show that $a_{n+1} = a_{n+1}$. We have $a_{n+1} = \frac{1}{n+2} + a_n$ $a_{n+1} = -1 + \frac{1}{n+1} - a_n$

What's new in Spriter: Dreamworld Adventures Environment Art Pack:

I am more than happy to release the third and final Spriter: Dreamworld Adventures environment art Pack today. This set is packed with all of the required elements that you will need if you want to create an environment art for your game. It includes a texture sheet which contains 110 green and brown textures, 26 greyscale textures and each texture is set at 32px even in hi res. It comes as a zip file which contains both the 5 Pages and the 1 PNG. It doesn't have any fancy visual styles as it was made for an indie game that's a while back but it does have all of the textures for you to use in a variety of games. This pack is especially good if you are looking for the professional designer touch to work on your next art. I hope you guys find this pack useful as I did. Please let me know if you find that you have any problems in use. I always love constructive feedback. -Lewis MacLean. How to install/use this pack Use English as the displayed language.
