MixMeister Fusion set the standard for combining live DJ performance with the pinpoint precision of the best music production software. Version 7.7 includes breakthrough new features like an enhanced timeline, improved time-stretching and support for Mac OS X. Explore the professional performance studio power of the software that millions of DJs use. The latest editions of MixMeister Fusion 7 have been developed to be as intuitive and powerful as possible. Fusion is our most powerful audio mixer, with 8- and 16-channel mixing, unlimited number of audio and MIDI tracks, a whole boatload of effects, and a full timeline view with dedicated undo and redo buttons for the most complex tasks. It's a perfect combination of the perfect performance mixer with the perfect music production software. With MixMeister Fusion's powerful mix monitoring, you get complete control over audio levels, effects, and filters for both audio and MIDI tracks. You can also switch audio and MIDI tracks by dragging and dropping them in the timeline view. Mixing in one channel at a time can be a chore. With MixMeister Fusion, you can create full mixes for the song or cue by combining up to eight channels of audio and one MIDI track, with up to three undo levels. In the 'Mix' tab, effects can be applied to audio and MIDI tracks individually or in unison. The built-in effects include a dry/wet mix with level and stereo compression, an independent stereo compressor, a panned and level EQ, a frequency shifter and a virtual reverb.
