The capillary electrophoresis of methotrexate (MTX) with poly-L-lysine conjugates of various molar ratios has been studied. The results show that a new method for investigating the binding affinity of anti-MTX monoclonal antibody to different MTX-conjugates was developed and the binding constant was calculated.Friday, March 19, 2012 July 2012: I think you should know that some high-ranking members of the Mormon Church are in the same boat as you: insecure about their sexual orientation and worried
